

**The project material lists are crucial for your academic growth and are separated by grade level. Please ensure you choose the grade level you will be in for the 2024-2025 school year.**

These projects, which will be presented to the class and count as the first grade for the first trimester, are not just about academic growth. They are designed to ignite your curiosity, deepen your understanding, and most importantly, provide a unique opportunity for you to express your creativity and personal interests. We will embark on these exciting projects in class starting the second week of school.

Alongside the Socratic seminars, you will engage in various projects that serve as practical applications of your learning. These projects are not just about understanding literary elements and deeper context meanings in the novels but also about using these skills in real-life scenarios. By applying what you learn in class to real-world situations, you'll feel more connected to your studies and see the practical value of your education. We will be using these materials throughout the year, ensuring your learning is continuous and comprehensive.

**6th Grade-** Trading cards project-

For this project, you will need colored pencils or markers, a ruler, scissors, and glue (glue sticks or a school glue bottle).

**7th Grade-** Drawing characterization traits body outline-

For this project, you will need the following materials: Colored pencils or markers, a ruler, scissors, and glue (glue sticks or school glue bottle).

**8th Grade-** Creating a scrapbook identifying character traits and themes-

The materials needed for this project are colored pencils or markers, a ruler, scissors, and glue (glue sticks or a school glue bottle).

I will hand out and review the project directions and rubric to you during the first week of school. Remember, you're not alone in this. I'll be here to guide you every step of the way, ensuring you feel confident and secure in your project work. Your success is my priority.
